Rhode • Island •

Campus Life p. 102

At the University of Rhode Island all enrolled students must first partake in an almost two year program through the University College. The woman behind this two year college structure is **Dean Diane W. Strommer.**

How does one become the Dean of such a unique college as University College? Dean Strommer, who graduated with a Ph.D. in English specifically in Renaissance Drama, started out as a faculty member at Boston University. After taking on some part time administration positions she moved to Texas where she took on the role as Associate Dean of the College of Liberal Arts at Texas A & M University. After a national search in 1979, Diane Strommer became the Dean of University College and Special Acedemic Programs at URI.

Recently, the role of Dean Strommer has gone through some restructuring in as far as her role that is in charge of the special academic programs. The special academic programs consist of: Study Abroad, University Year for Action, Child Development, and the National Student Exchange. The new additions to the special academic program are the Counseling Center, Career Services, a Learning Assistance Center, and more clearly defined programs for those undecided and for the athletes. Thus, Dean Strommer's responsibilities have expanded to include these new programs.

University College is one of the many unique services at URI. Dean Strommer is the special individual who is proudly in charge of this service. Her help as well as the help of her administration and the faculty members who take part is greatly appreciated by all students.

RHODE ISLAND

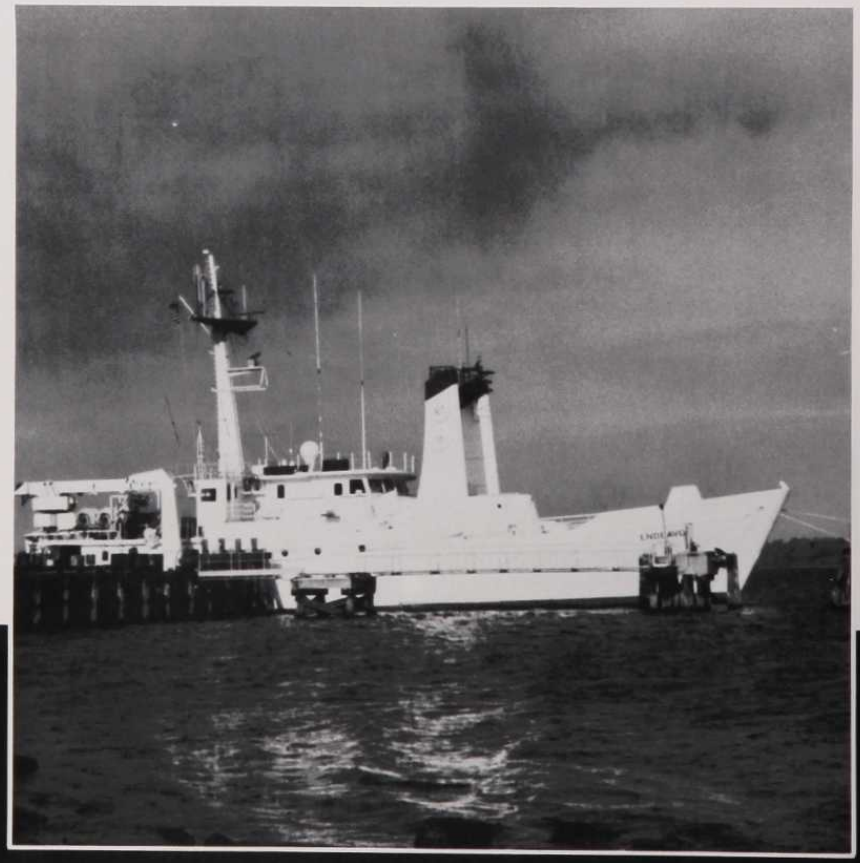

The field of engineering covers a wide spectrum of concentrations. One of the more unique concentrations is ocean engineering. How does a person become interested in ocean engineering? For **Dr. Armand J. Silva,** chairman of the department, the interest was ocean sediments while a civil engineer at Worcester Polytechnic Institute. He started to work with Woods Hole Oceanographic Institute, then with URI. He eventually came here in 1976.

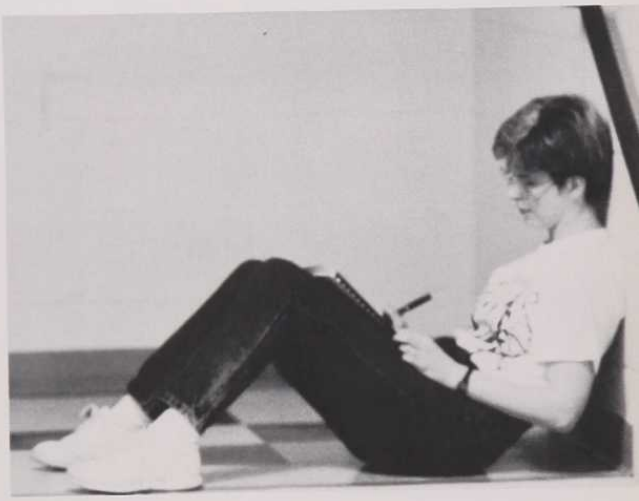

Silva says URI's ocean engineering program is unique because of its broad base. The Areas include ocean instumentation, data processing/analysis, underwater acoustics, hydrodynamics, nearshore and coastal modeling, marine geo-mechanics, and the beginnings of an off-shore structure program. Another strength is the Graduate School of Oceanography, with which the ocean engineering department works closely with on many projects. Several of the laboratories are actually located on the Narragansett Bay Campus.

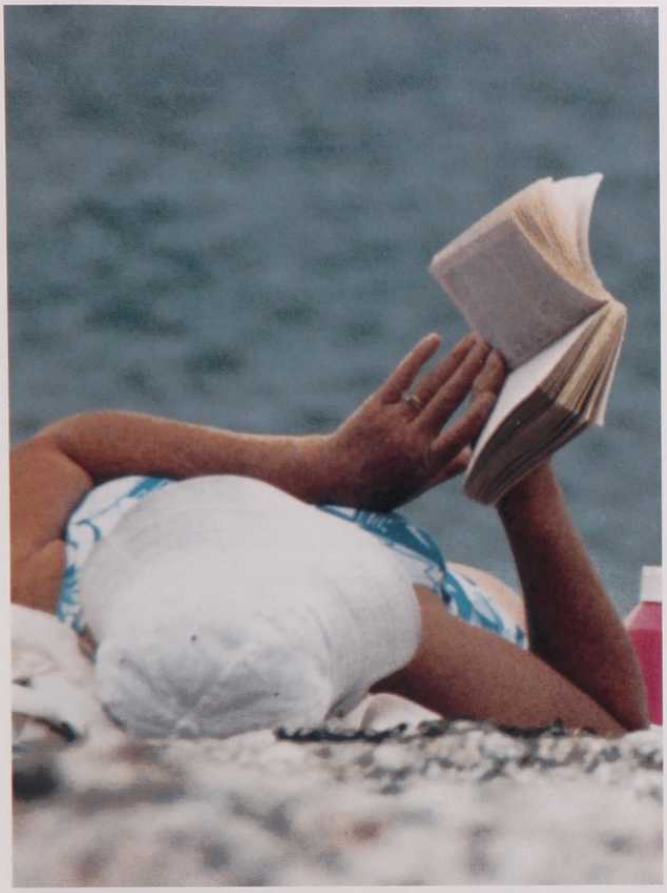

RAMS

BEACH
BEAGLE

How do teaching methods vary? Do different professors find that different methods of teaching work better than others? If I had to evaluate the teaching methods at the University of Rhode Island, College of Business Administration, I would have to say overall the professors are all very helpful and full of knowledge. One outstanding professor is Dr. Diane Disney. She has a sincere interest in helping her students. Her day only begins when her classes end.

Dr. Disney has a degree in English, Russian, and Journalism. She has also completed her MBA here, at URI in 1978. Besides teaching she has also enjoyed writing, consulting, and working on prominent community and social issues, such as the Director of Career Education in Newton, and Executive Director of the Rhode Island Counsel of Arts. She has also held many positions here, at URI. She is an advisor for Beta Gamma Sigma (the business national honor society). She also acts on the university wide Committee for Writing across campus, and lastly as an advisor for university college, on the general education committee.

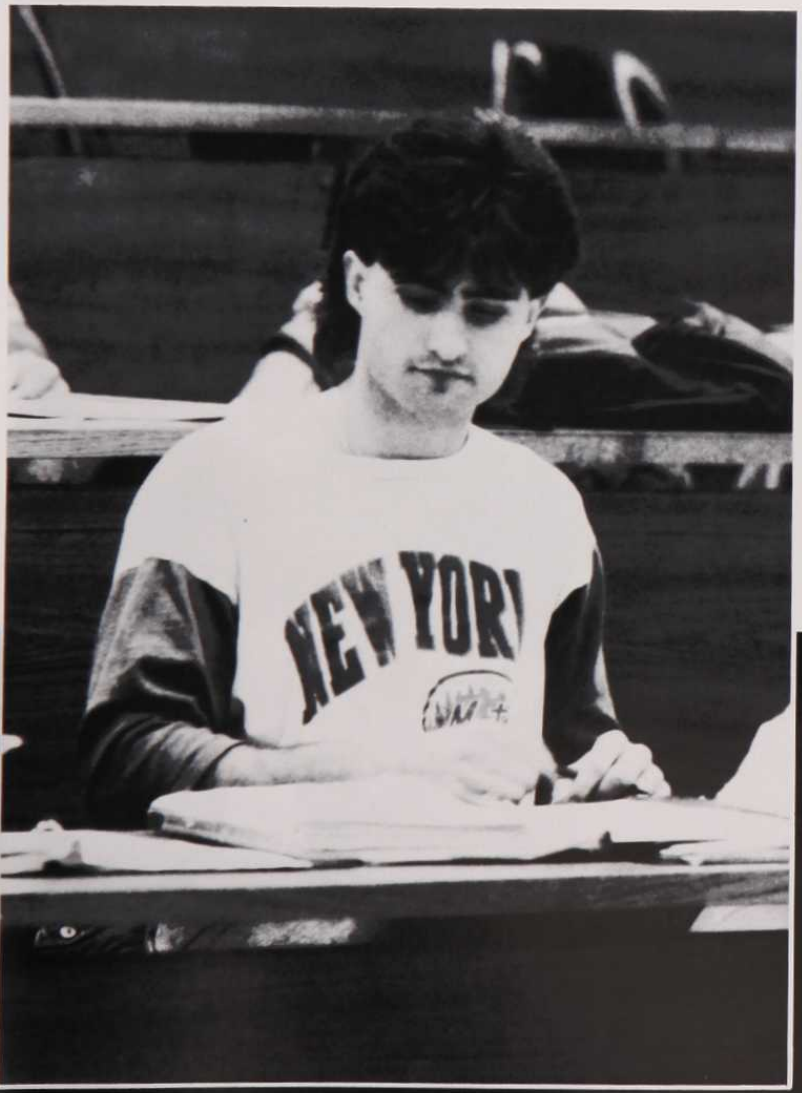

Dr. Disney left Brandeis U. to come to URI. She has actually only been here just over three years. She thoroughly enjoys teaching. She teaches many MGT courses including the infamous MGT 410. She says she enjoys teaching MGT 410 the most because she gets to see her students blossom throughout this course more then any other.

Looking toward the future, Dr. Disney hopes to see an intergration between the humanities and business students and the courses they take. She is an insperation to us all. She gives her students a clear picture of what is going to be expected from them after they leave the university and go onto the next plateau of their life. I don't see how anyone can ask for anything more.

NEW YORK

Dr. Joseph Turcotte is one of the special professors who along with teaching here at the University is doing research that is connected with URI as well as many other colleges and institutions that will hopefully benefit the rest of the world.

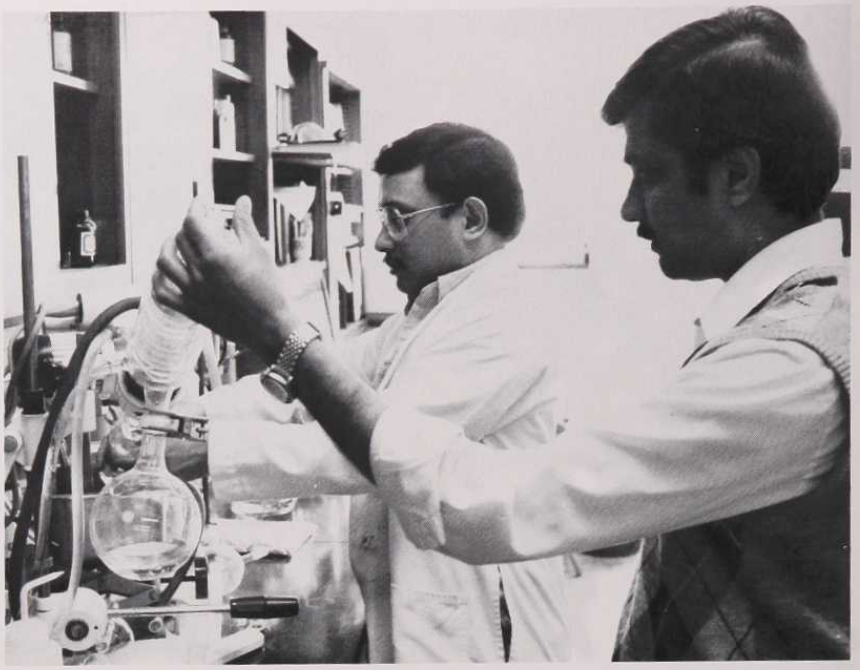

URI is one of twenty eight organizations that are based throughout the U.S. in conjunction with the National Cooperative Discovery Groups. All of these twenty eight groups are working on finding a cure to AIDS. Dr. Turcotte's laboratory is primarily concerned with the design and development aspects of drugs. The properties of these drugs are catagorized and sent to the National Cancer Institute where they are tested in culture against the virus. This particular aspect of AIDS research is a cooperative effort of five institutions.

The Princess of Thailand who herself is an organic chemist found out about the research efforts that were taking place at URI and other institutions, and she now would like to link up with one or more institutions to help train individuals in Thailand to deal with AIDS patients. The future collaboration between URI and Thailand looks quite promising.

Along with the AIDS research, Dr. Turcotte's lab is working on products that can be derived from fish oils which have recently come to light that it might surpress the incidence of cardiovascular disease. His lab is also working on the cause of respiratory distress syndrome. His lab is specifically working on agents that can be introduced into the lung so that the patients might be able to get by the critical stages of the disease.

Professor Joseph Stein at Brown University has helped Dr. Turcotte in many of his research efforts. His main focus is to study the physical characteristics of the kinds of agents that they both are using. Professor Stein's help along with many others in conjunction with Dr. Turcotte's research all helps contribute to larger research institutions concerned with the AIDS virus as well as other diseases.

Dr. Joseph Turcotte is a valuable faculty member in the Pharmacy College at URI. His teaching as well as his research in benefiting all will hopefully someday soon have many positive outcomes that will benefit mankind.

ROTC

The ROTC program at the University of Rhode Island focuses on education beyond the classroom. The military science program falls under the college of Arts and Sciences. The classes highlight leadership skills which are developed further in leadership labs held once a week.

Cadets participate in various events such as climbing Mt. Washington, Mini-Camp where maneovers are practiced, military balls and a dining-in, a traditional formal dinner to name a few. This past year the cadets traveled to Washington, D.C.

When you are commisioned as a graduate of the URI ROTC program, you have the experience of a leader.

The yearbook would like to thank Major Lexvold and Captain Lawson for their information about the ROTC program.

The most valuable experience I had in ROTC was participating in a summer training program for nursing students which dealt with actual nursing care in an Army hospital in Fort Bennning, GA.

- - - Jamie Cherry (Senior)

The most valuable experience I had in ROTC was going to Basic Camp in Kentucky where I used my M-16, went on 5 mile road marches and a midnight reconaissance mission.

- - - Elizabeth Morriseey (Junior)

Photos by J. Fraser

What I enjoyed most about ROTC was the interaction with a variety of people. They welcomed me in as a freshman and really made it seem family-like. They helped me settle into a school.

I had a great time in Washington, D.C. I enjoyed meeting Chafee and Matchley and seeing them in their own setting. It was a valuable experience as a potential voter.

- - - Lisa Dobrowolski (Freshperson)

What I enjoyed most in ROTC was the companionship of being with other ROTC cadets throughout the country, from Hawaii to Maine to Puerto Rico.

- - - Jamie Cherry (Senior)

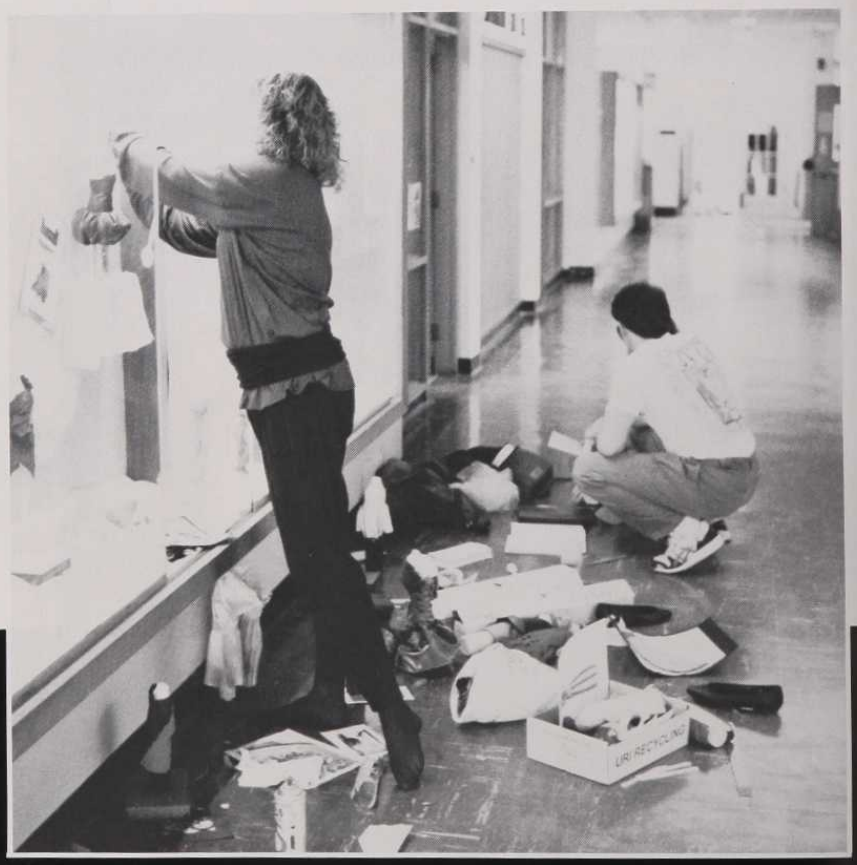

Did you ever notice the large number of fashion conscious people going in and out of Quinn Hall? At URI there are over three hundred majors in the Textiles, Fashion Merchandising and Design department. The head of this department who is a Ph.D. graduate of Florida State University is **Dr. Patricia Helms.**

Dr. Helms feels some of the best aspects of her department are the challenging professional training programs and the numerous internships offered through the university. Some companies solely interview at URI for internship and/or job applicants. This is due to the fact that URI has the only accreditted Textile Marketing program in the United States.

The Textiles, Fashion Merchandising and Design program at URI is rapidly expanding due to the fact that there are too many students to the number of faculty members. Although the department only comprises of 10% men this number is also on the rise. No other school in the northeast is as highly qualified as the program at URI.

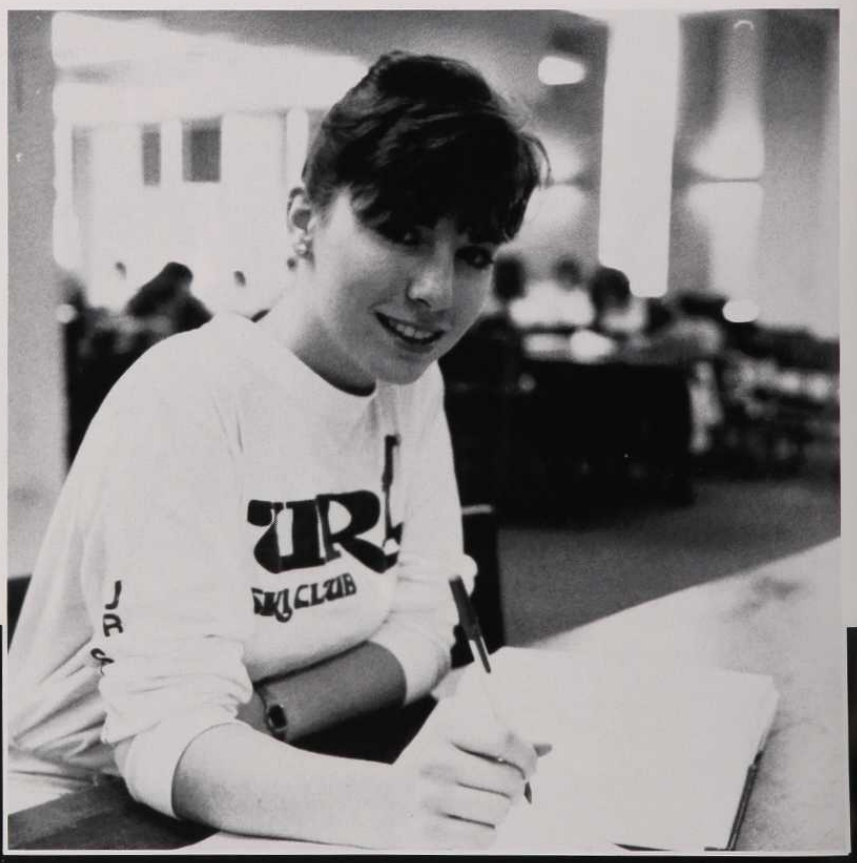

The College of Nursing is a college frequently overlooked when thinking of URI, but it is one of society's most important careers. I recently spoke with **Janet Hirsch, R.N.,** a professor of nursing and a member of the AIDS Task-Force. I asked her if the College had felt any of the recent nursing shortage. She said that enrollment had declined a few years ago, but it is back on the increase again. She cites the reasons as people entering nursing as a second career and the excellent possibilities of getting jobs after graduation. The number of men in the College is also on the rise with the Navy sending men to URI for schooling.

I also asked Ms. Hirsch what she hopes to see happen in the College in the next few years. She replied that she hopes to see nursing students becoming more involved in the University. For example, she hopes to see students working with Health Services and counseling.

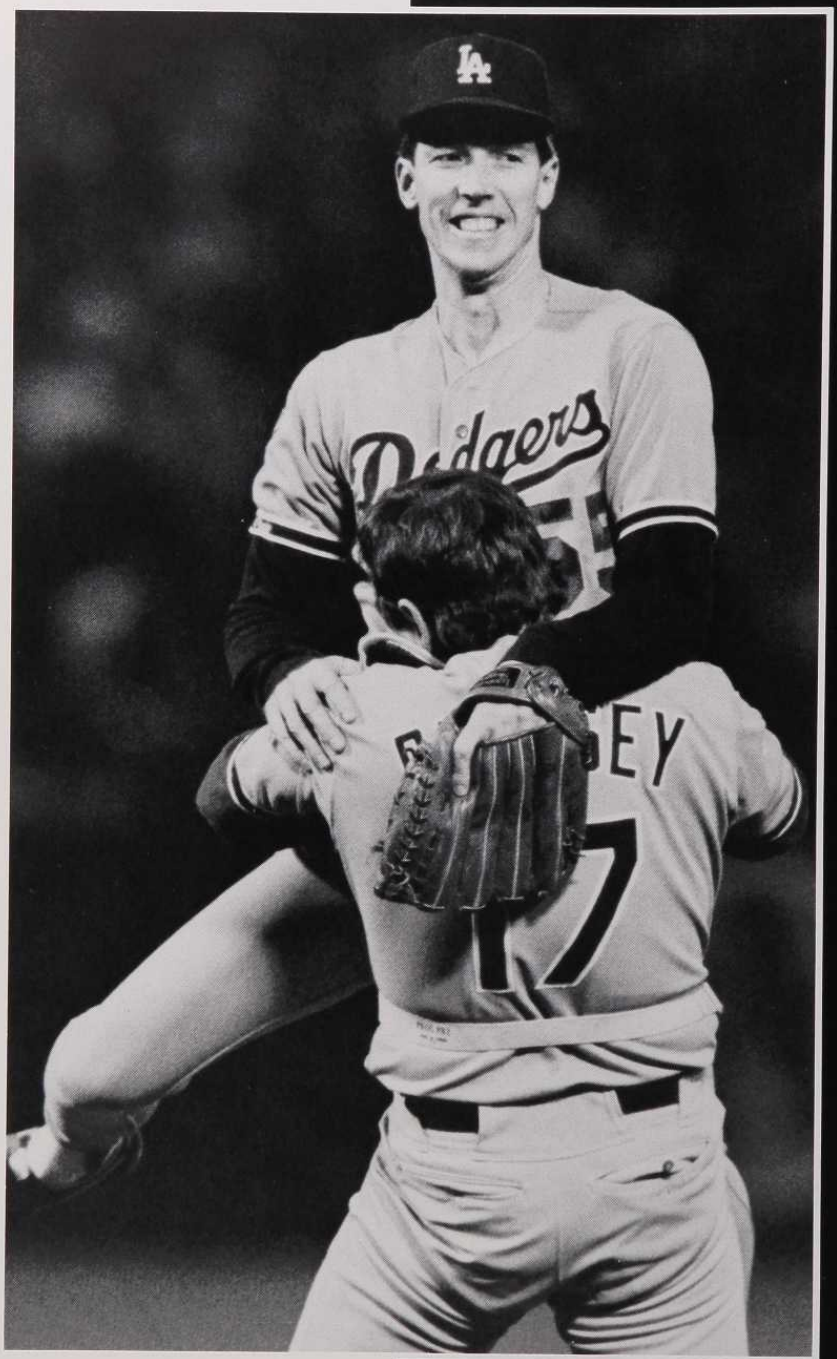

RHODE ISLAND MEMORIAL

WORLD EVENTS

The World Series belonged to the Los Angeles Dodgers. The Dodgers captured their sixth world Series title in October with a 5 - 2 victory over the Oakland A's in the fifth game of the series.

Copy and photos provided by the 1988-89 Associated Press Yearbook package.

It became an international effort of good will. Russians and American rescuers cut through the ice in Alaska to save two California gray whales. The whales were trapped in the ice for more than three weeks. News media from around the world converged on the tiny village of Barrow, Alaska, to cover the successful rescue.

The summer of 1988 was hit with the worst drought in many years. Throughout the midwest, farmers watched helplessly as their crops went dry.

Vice President George Bush, after serving for eight years in the Ronald Reagan administration, got the expected nod at the Republican National Convention in New Orleans in the summer of 1988. His choice for running mate was unexpected — Sen. Dan Quayle of Indiana. The public opinion polls showed that the inexperienced 41 year-old senator was not a popular choice.

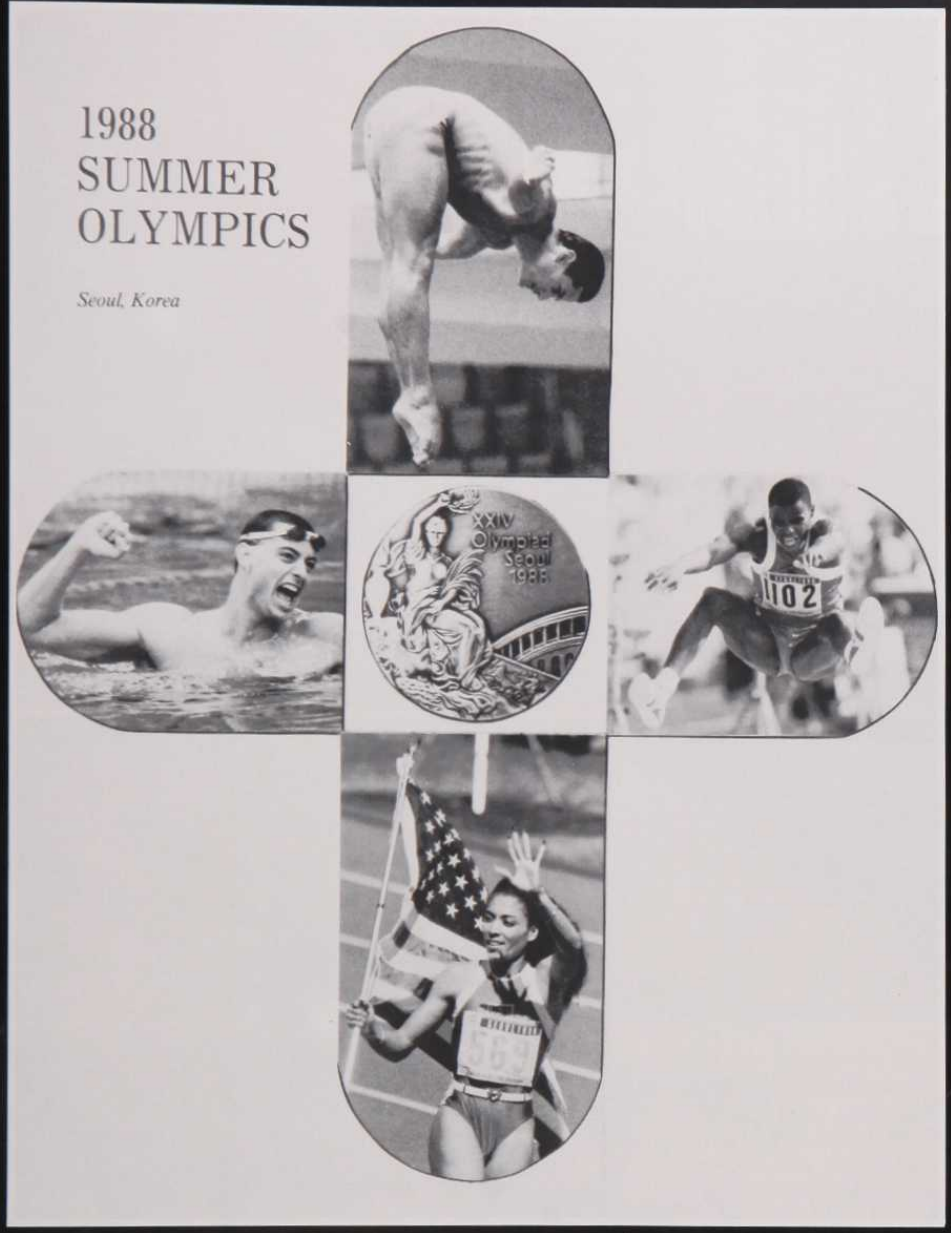

The shuttle Discovery blasted into orbit in September, the first space flight since the shuttle Challenger mission ended tragically 73 seconds after liftoff on Jan. 28, 1986. The Discovery ended its successful four day, 1.6 million mile mission with a triumphant landing at Edwards Air Force Base in California.

It was one of the big marriages of the year. Heavyweight boxer Mike Tyson married actress Robin Givens. But the stormy marriage of the 22 year-old rich boxer and the 23 year-old beautiful actress lasted less than a year. She filed for divorce. But after being accused of marrying "Iron Mike" for his money, Ms. Givens said she wouldn't take a dime.

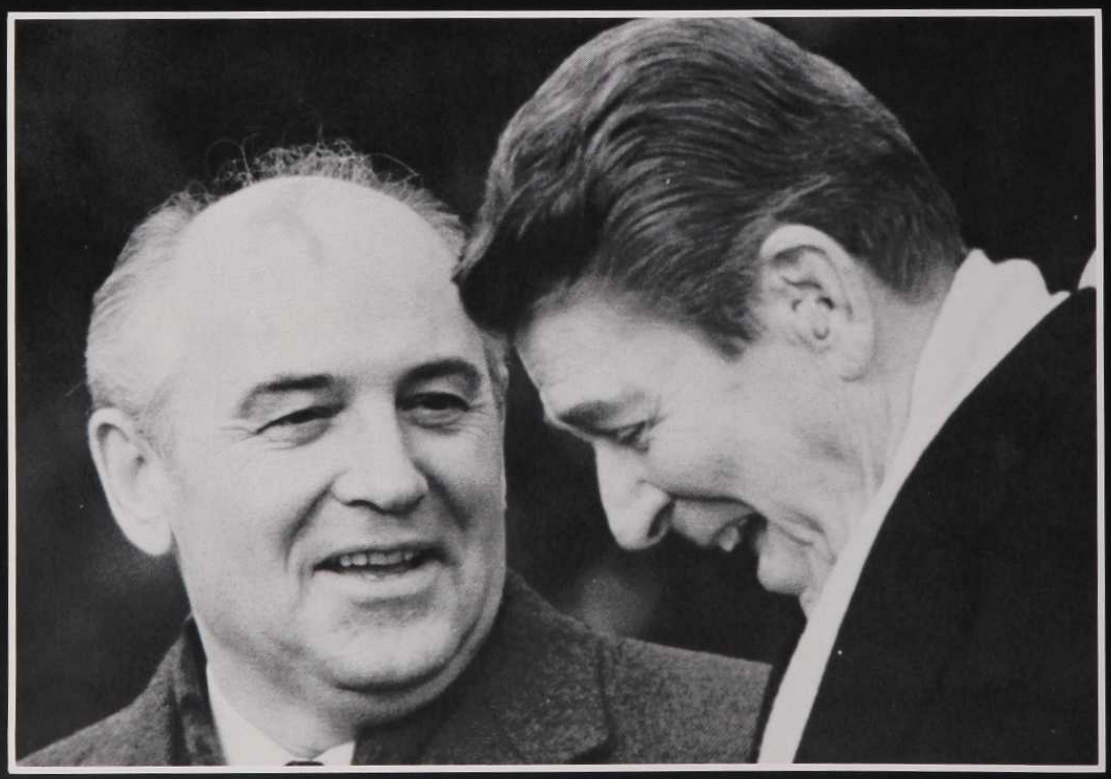

The Democrats went to Atlanta in the summer of 1988, and decided on Michael Dukakis, the governor of Massachusetts, to be its candidate for President of the United States. He decided to pick Lloyd Bentsen, a senator from Texas, as his running mate.

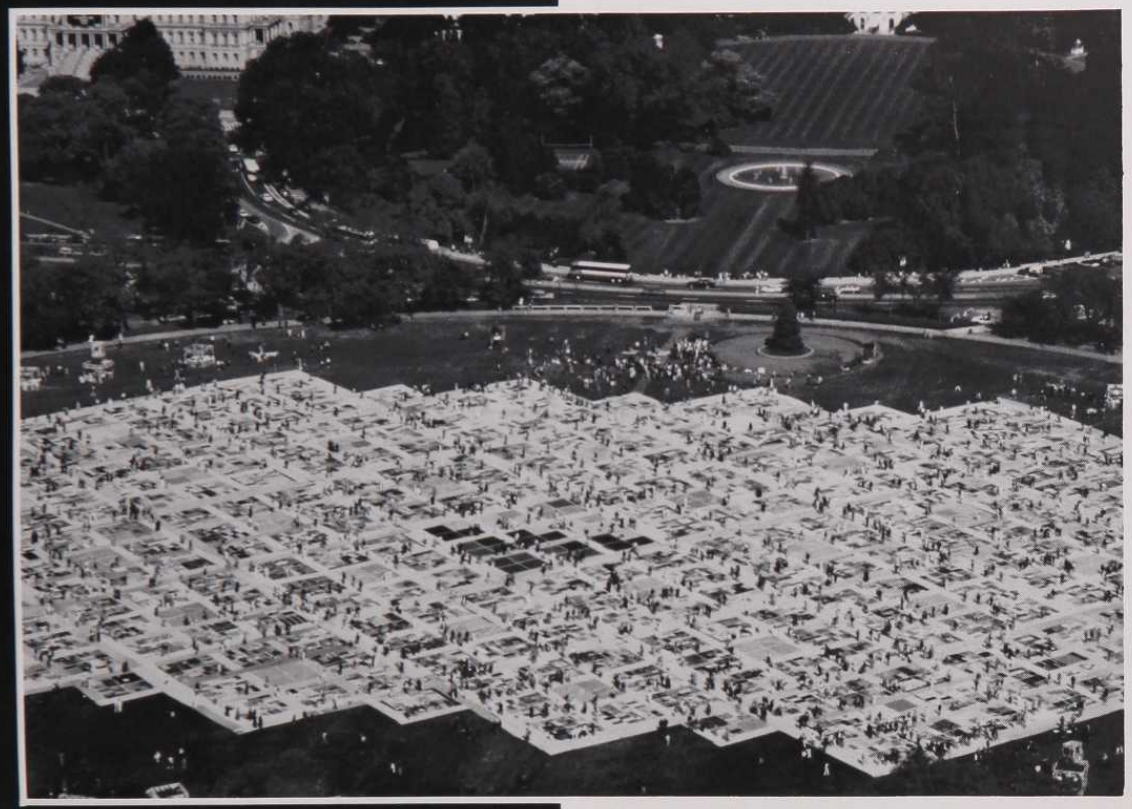

The stars of the 1988 Summer Olympics, clockwise from top: diver Greg Louganis won 2 gold medals; track and field star Carl Lewis won 2 gold (including 1 after Canadian Ben Johnson was disqualified) and 1 silver; Florence Griffith Joyner won 3 gold and 1 silver; and swimmer Matt Biondi celebrated with 5 gold, 1 silver and 1 bronze.

Forest fires spread throughout the western part of the country in the summer of 1988, destroying millions of acres of national parkland. The most heavily damaged was Yellowstone National Park.

President Ronald Reagan and Soviet Leader Mikhail S. Gorbachev worked for several years to bring the two countries together. After a treaty was signed to eliminate certain nuclear weapons, 1988 was the year the efforts of these two leaders went into effect.

Amid tears and grief, thousands of people who had died of AIDS were memorialized in October in ceremonies centered on a huge quilt that was made from friends and family members of the victims. Each of the panels measured three feet by six feet and all 50 states and a dozen foreign countries were represented in the 375,000 square foot quilt.

SENIORS

*The count down began at the **89 Days 'Till Graduation** party held at Sandcastles, March 3. Those seniors who attended pledged their support to the 1989 Senior Challenge. The program was a success and the party proved it. Photographers Missy Cummando and Jay Tarrant were there to capture the celebration.*

Graduation

May 28, 1989

Most of what I really need to know about how to live and what to do and how to be I learned in kindergarten. These are the things I learned:

Share everything.
Play fair.
Don't hit people.
Put things back where you found them.
Clean up your own mess.
Don't take things that aren't yours.
Say you're sorry when you hurt somebody.
Wash your hands before you eat.
Flush.
Warm cookies and milk are good for you.
Live a balanced life-learn some and think some and draw and paint and sing and dance and play and work every day some.
Take a nap every afternoon.
When you go out into the world, watch out for traffic, hold hands and stick together.
Be aware of wonder.

Robert Fulghum All I Really Need To Know I Learned In Kindergarten

Organizations

Little Brother, Little Sister

Little Brother/Little Sister is a student-run organization that aims to provide companionship for the youngsters of the community. URI students are paired with children from the community based on hobbies and interests. The "Bigs" are asked to see their "Littles" once a week with transportation provided by the organization. A few of our past activities include a Halloween party, rollerskating, a Christmas party with Sigma Phi Epsilon, a Valentine's day party, attending Ram basketball games, a booth at the Purim Carnival, and a spring field day/ barbecue with Chi Phi.

Students For Access

Students for Access, co-founded by Nancy Sgarzi and Michael Daigneault, is a new organization with about 10 - 15 members. The organization's goal is to bridge the gap between the disabled and able-bodied communities on campus. They conduct events like a disability awareness month with speakers, workshops, and movies, a Wheelchair Access Day and a Wheelchair Basketball Game to name a few.

URI-TV

URI-TV says "Come turn us on!" This newly formed student organization/station was established late in the spring semester of 1989. The founding and inaugural Board of Directors: Beth Corets, Jennifer Dillon, Jason Gold and Jesse Mook, met at a Broadcast Journalism symposium and hope to interest students from all major fields of study. Potential programming ideas include news broadcasts, documentaries, commercials, short films, and soap operas. All of these features will be produced by students and will reflect campus life, as well as the academic experience.

Back row from left to right: Lauren Blanchard, Desiree Chappelle, Kara Brown, Ken Burton, J. Metz, Mike Rossi. Front row from left to right: Kathryn Krassner, Jesse Moor, Jason Gold, Beth Corets, Jennifer Dillon, Susan Camara, Peter Wood.

Mortar Board, Inc.

Mortar Board Inc., is a senior honor society whose members are chosen on their scholarship and cocurricular activities. There are currently over 190 active chapters across the country. Mortar Board was proud to be chosen as one of five recepients of a grant to use in a community project. Since the literacy movement is on the uprise, the Laurels chapter has decided to utilize the project money to help the South County Adult Literacy program. Mortar Board would like to thank Professor Hetzner for his support this past year.

SEC

The URI Student Entertainment Committee is an organization which provides entertaining, educational and cultural activities and events for the University community. SEC is comprised of four subcommittees: Concert/Dance, Lectures, Special Events and Mid-Day/Off-Campus. Sec has had a great year with a wide variety of events. These include live concerts with Eddie Money and Elvis Costello. SEC has sponsored trips to New York City, Red Sox games and more. Daytime events include Santa Photos, comedians and caricature artists. Lecturers included Geraldine Ferraro, Morton Downey, Jr., and our own Faculty Lecture Members. With an all-time high number of members, SEC's events have involved a large proportion of the student body. SEC is always interested in new members and encourages you to stop by the Memorial Union room 230 if interested.

SEC would like to recognize three members who are graduating this year: Christine Crowe, Kelley Wolfe and David Degidio. SEC thanks you for your contributions and we will miss you!!!

Sitting from left to right: Neal Walsh, Bill Moreno, Dave Platt, Ron Bates, Monique Smith, Mike Brothers, Boris Tabenkin, Tim McElroy. Dorm "Sweet" Dorm

In September many students arrive here at URI not knowing what to expect. The one thing they do know is that it is not like home! No one is there to nag you about how messy your room is, unless your roommate can't find their way to the door without taking out a roadmap.

There are three types of housing. First are the Eight-Bedroom Suites. Eight double bedrooms open into a common corridor with a lounge area at the center. There are two bathrooms for every group of four bedrooms. These suites are located in each of the six tower dorms. Students must have the initiative to meet other residents, for the rooms are slightly confined, but it is possible to meet just about everyone in the dorm. The six are:

Aldrich
Burnside
Coddington
Dorr
Ellery
Hopkins

The next type is the Two-Bedroom Suite. These are two double or triple bedrooms, with one adjoining bathroom, each room has its private entrance from a central corridor. Each suite is limited to either men or women, but both sexes are on each floor. There are three dorms in this category:

Fayerweather
Gorham
Heathman

Finally there are the Standard Hall rooms. The largest number of rooms are in the traditional hall dorm with double or triple rooms opening into a long corridor with a common bathroom at the end. This is the easiest type of dorm to meet people. The ten dorms are:

Adams
Barlow
Bressler
Browning
Butterfield
Hutchinson
Merrow
Peck
Tucker
Weldin

No matter what dorm you are in for the next two semesters it is *home!*

How Many?

In response to the increased enrollment most freshmen and some upperclassmen found themselves in triples.

Triples are rooms meant for two, but because of housing shortages were occupied by three. A triple can best be compared to a bicycle built for two. Where do you sit the third?

"With our diverse personalities we were forced by the minuteness of the room to bond together and adjust to the living arrangement."

Bill M. 1992

"Where were we going to put all this shit?"

Jennifer B. 1992

Photo by Kris Prendergast

"I didn't care, it didn't bother me. URI never informed me I was in a triple."
Christa M. 1993

Photo by Kris Prendergast

"I felt like a freshman. We hated the third guy so we made life tough for him till he moved out."
Thomas S. 1992

"It was good because we got money back."
Laura J. 1991
Sue M. 1991

"It was cool, better than living in a single now!"
Brendon 1992

RHC/RA:

Beyond What The Job Calls For

Years ago a Residence Hall Coordinator (RHC) was considered a resident's parent. Today the RHC is the administrator of Residence Halls. The job entails interaction with staff and residents in the areas of counseling, discipline, and programing events; plus they balance the budget of the dorm and maintain the overall upkeep of the dorm.

The Resident Assistant is a student who directly interacts with residents enforcing the University rules and regulations. They try to promote relations within the dorm, they're an advisor, they are *your* friend. The RA works about 40 to 45 hours a week, only getting paid for 20 of those hours. They carry a full school workload, and are required to have office hours. They are on call a couple of nights a week, with all this work when do they find time for themselves?

Please Write Back

On this campus mail is an essential part of a student's sanity to stay in touch with the "outside world". Residents hover over mail boxes like vultures waiting for something to arrive with their name on it. The concealed parcel lurks in the depths of the post box.
What will it be . . .
Is it just junk mail . . .
Is there money in it . . .

Photo by Kristen Barbero

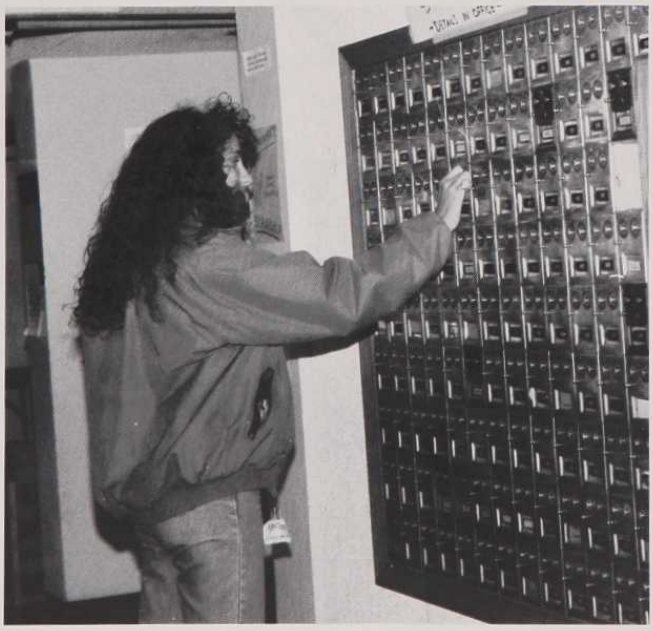

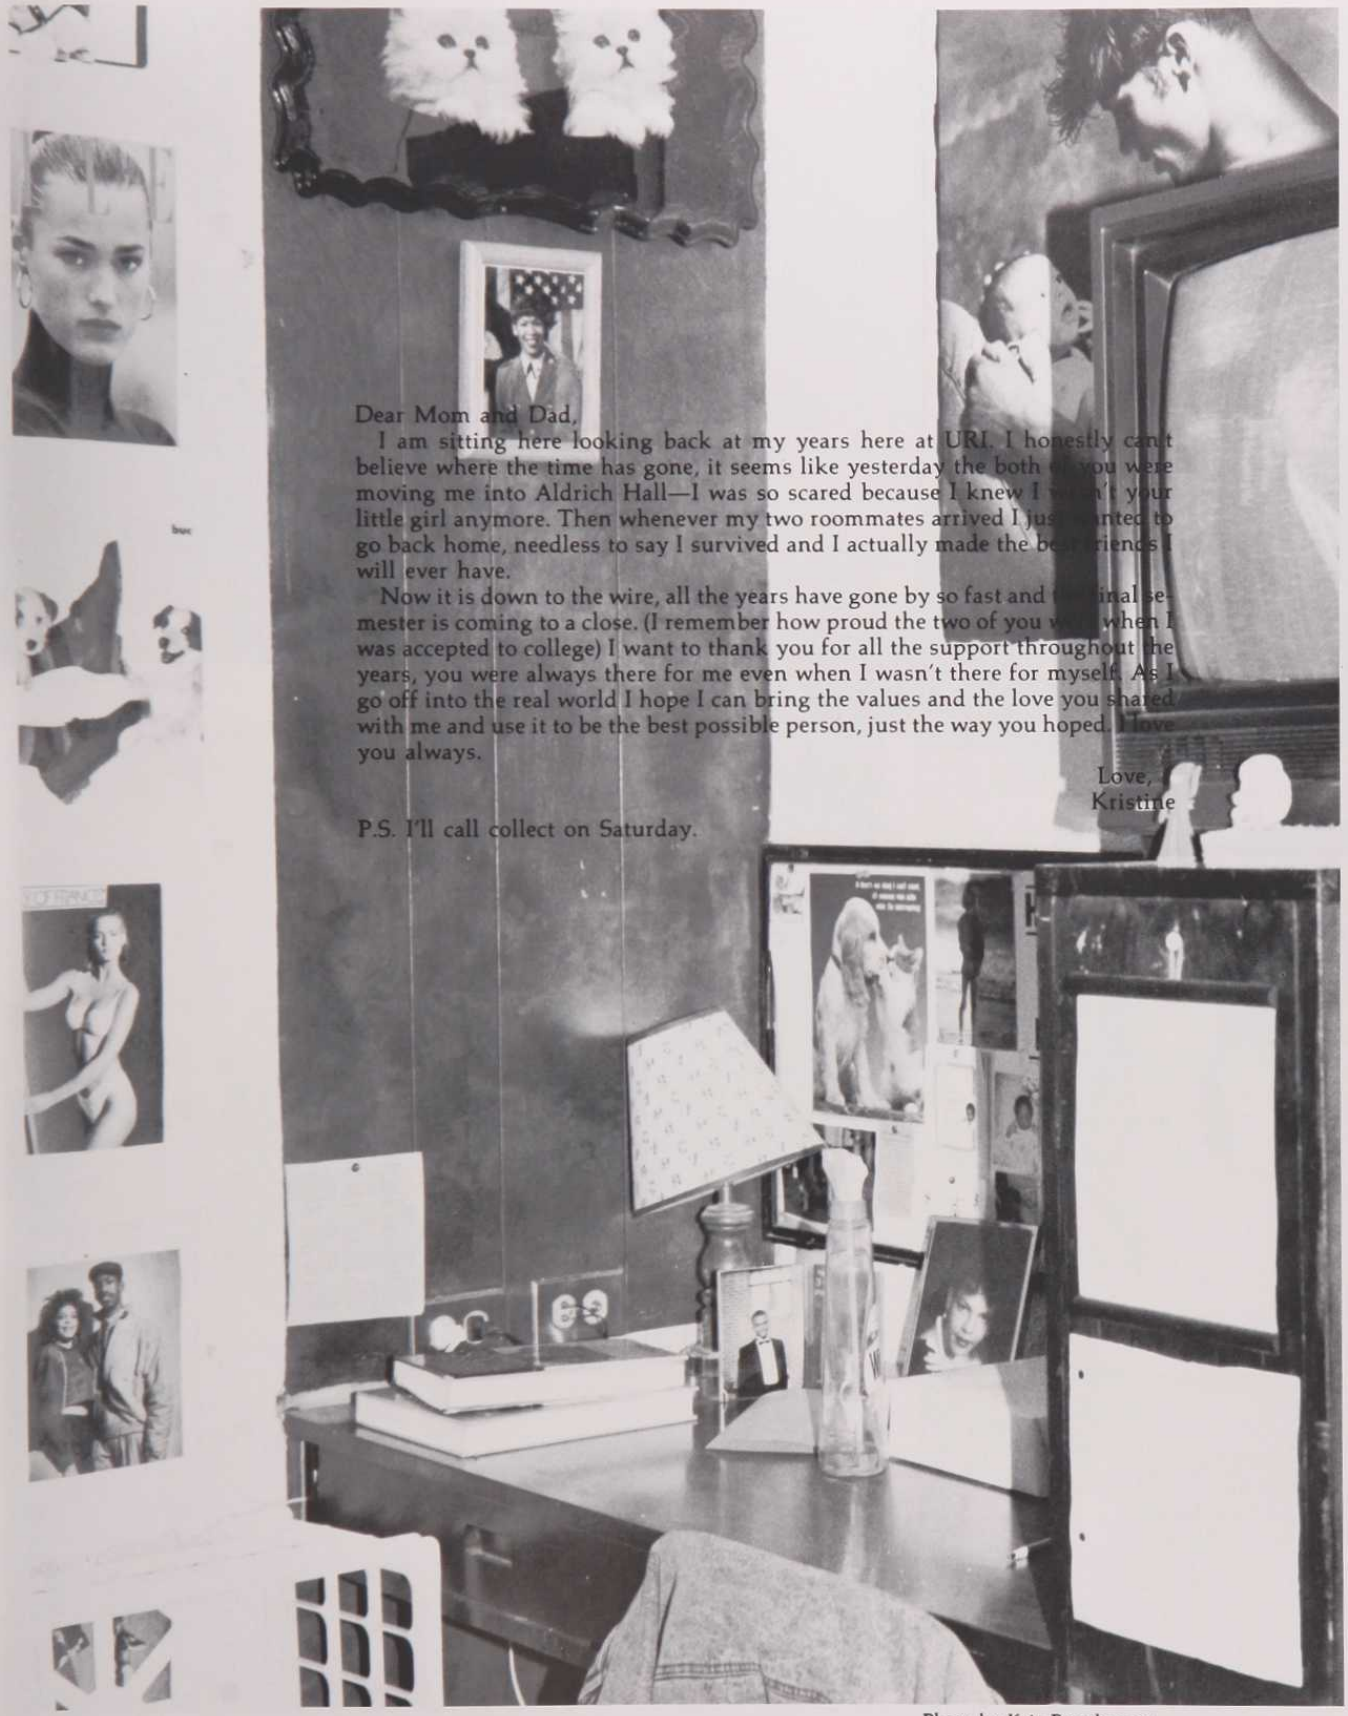

Photo by Kris Prendergast

Photo by Kris Prendergast

Dear Mom and Dad,

I am sitting here looking back at my years here at URI. I honestly can't believe where the time has gone, it seems like yesterday the both of you were moving me into Aldrich Hall—I was so scared because I knew I wasn't your little girl anymore. Then whenever my two roommates arrived I just wanted to go back home, needless to say I survived and I actually made the best friends I will ever have.

Now it is down to the wire, all the years have gone by so fast and the final semester is coming to a close. (I remember how proud the two of you were when I was accepted to college) I want to thank you for all the support throughout the years, you were always there for me even when I wasn't there for myself. As I go off into the real world I hope I can bring the values and the love you shared with me and use it to be the best possible person, just the way you hoped. I love you always.

Love,
Kristine

P.S. I'll call collect on Saturday.

Photo by C.L. Gempp

Take The Challenge

An alternative to living on campus is to go "Down-the-Line". Basically it is renting a house in nearby communities like Narragansett or Charlestown and learning to be "on your own". Students have to budget their money because they must pay the rent each month; pay the electric bill, plus make sure the fridge is stocked. These students contend with traffic each morning, fight for a parking spot, go to classes and at the end of the day go home and cook dinner while they rush off to work so the bills are paid on time. Sounds a lot like the *real world.*

Clubs

The local bars and restaurants were more than places to get $1 Rolling Rocks or "Free Food" at Friday night happy hours. They were places to unwind from a long week at school and a time to catch up with friends!

Photo by C.L. Gempp

Down The Line

The Ongoing Battle For A Spot

One of the major problems a commuter and even a resident has here at URI is finding a place to park. Every morning students leave their homes twenty minutes earlier than they need to, just to "roam" Fine Arts Lot or Keaney Gym to find a *safe* place to park where they won't get the dreaded $51.00 Fire Lane Ticket.

The University is in the process of adding parking spaces but there are just too many students with cars on campus and never enough spots. Students have addressed the problem and even tried to give suggestions to diminish the problem, some were useful others just humorous, but parking remains an ongoing battle; a battle for truth, justice and a parking spot.

Photo by

ISLAND

Photo by M. Cummando

Where Do They Go?

Many commuters have classes that are hours apart; so where do they go between classes? On a sunny day they are on the Quad or on the veranda in the Union drinking a soda. Many students look for a quiet corner in the library to catch up on the homework they forgot to do the night before. Wherever they go, they're always among friends, talking and laughing, and isn't that what this University is about FRIENDS!!

Goin' Greek

Greek life possess a unique distinction from any other form of living on campus, there are 14 fraternities and 7 sororities which make up the Greek System. The fraternities and sororities are located in "houses" that are usually owned by the national chapter. Both the fraternities and sororities are governed by the Interfraternity Council and Panhellenic Council. Every house has representation in the IFC and Panhel, the councils handle problems that arise, set rush policies, and promote unity between houses.

Fraternities and sororities are individuals bonded together with common interests and talents which bring about a brotherhood and sisterhood between its members. The only way to understand this is to experience it for yourself.

Photo by M. Cummando

Photo by M. Cummando

Photo by M. Cummando

Photos by M. Cummando

Greeks Give

The Greek System is not just parties, socials, and competition; every year each house donates their time and energy toward their favorite charities. This years Greek Week raised $9,000.00 for the Coffee Kids. Some other charities include Sigma Pi's sleepout for the homeless, TKE's keg roll to the state capitol for St. Jude's Childrens Hospital, and TEP/ADPi's see-saw to raise money for the Ronald McDonald House. Also many houses collaborate to help out the community with Spring cleaning or raking leaves in Project Sunrise. Whether they are raising money for Muscular Dystrophy, the Meeting Street School, or for Vietnam Veterans the time and effort they put in is a positive indication of the necessity of the Greek System on this campus. Hats off to you all.

Photos by M. Cummando

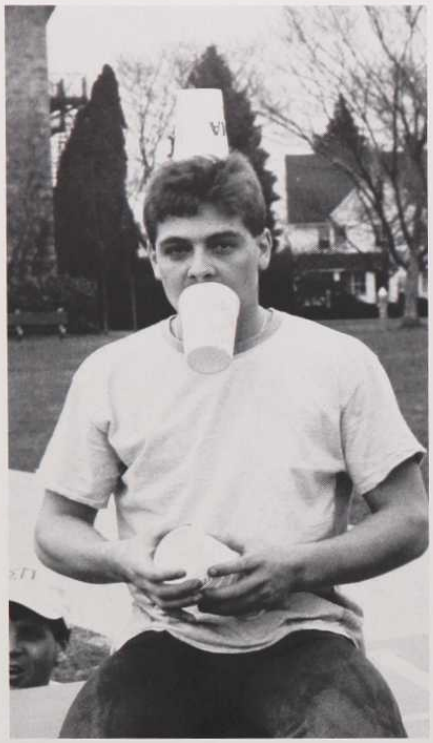

Let The Games Begin

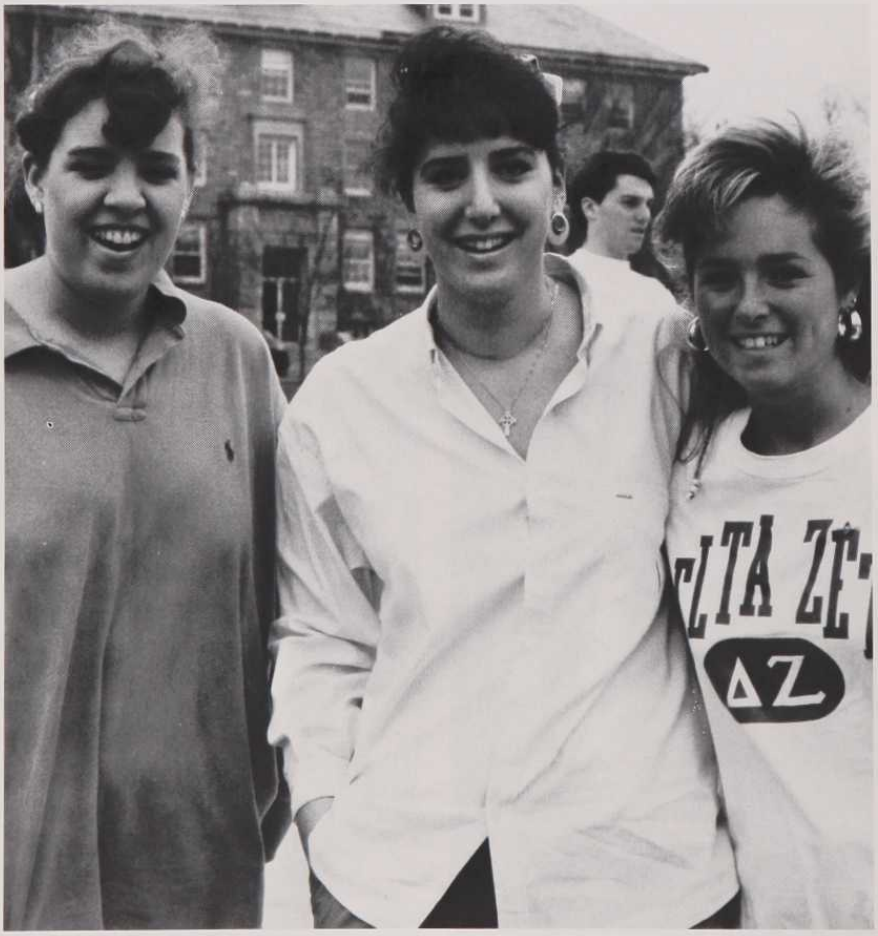

Every Spring the Greeks come together for seven days of competion like a "Greek Olympics". The fraternities and sororities are divided into teams. These teams try to accumulate points by placing in the events of the week. Some of the events include a Volkswagon push, a keg toss, tricycle races, the lip sync, and an intense tug-of-war. The fraternity, sorority, and combined fraternity/sorority team with the most points at the end of the week are the winners.

The 1989 teams are as follows:

1) Alpha Epsilon Pi— Zeta Beta Tau— Alpha Delta Pi
2) Chi Phi— Sigma Alpha Epsilon— Chi Omega
3) Sigma Phi Epsilon— Sigma Pi— Alpha Chi Omega
4) Sigma Chi— Phi Gamma Delta— Alpha Xi Delta
5) Lambda Chi Alpha— Sigma Nu— Delta Zeta
6) Phi Sigma Kappa— Tau Epsilon Phi— Sigma Delta Tau
7) Tau Kappa Epsilon— Theta Delta Chi— Sigma Kappa

Students Serve Students

The Escort Service is a student-run organization. It was organized three years ago by Officer Barbara McDonald. "Escort" (as it is called) provides transportation for the students of URI to various spots around campus. The service runs seven days a week from 5 pm to 12:30 am.

This past year the service underwent some changes. They hired a Student Coordinator and three supervisors, all under McDonald. McDonald is the program director. They also hired more students this semester. The service employs 45 students.

On an average night there is a dispatcher who answers the phone and dispatches the runs, five drivers and a supervisor. The reason for hiring more students was so that two students can ride together in the cars. This year we were fortunate to have the use of a new van plus the use of a URI station wagon.

The Escort Service is slowly becoming quite popular with the students. It was created with the purpose of protecting students at night and has become an invaluable service to the University community.

A Visit With President Eddy And Mrs. Eddy

After spending four years at the University of Rhode Island, aren't you a tiny bit curious as to what it is like living at 56 Upper College road? Well, President Eddy and Mrs. Eddy graciously allowed phortographer Jim Fraser and I into their homes to find out.

We discovered that the Eddys lead very busy lives. President Eddy described his daily activities as a mix of appointments and meetings and luncheons and more appointments and receptions, etc. However, he keeps himself busy from getting burntout by travelling to places like Turkey, the Far East and Switzerland when he gets the chance.

Mrs. Eddy likes to keep busy also. She runs every day and a goal of hers is to some day run in the Boston marathon. She also scuba dives and likes to keep active with community work.

We asked President Eddy about his views on the concept of a dry campus. He felt that it wasn't possible or wise. He did feel that the situation needed to be looked at.

We asked him about how he felt about publishing as a necessary criteria for a professor to receive tenure. He felt that research should add to the understanding. He felt that creative work and publications could encourage students.

We asked him if he felt that minorities were well represented at the URI faculty. He said no and that it takes a real effort to obtain and retain minority faculty members.

President Eddy sees the URI faculty-student relationship as a strength in the fact that some faculty members do have a strong relationship with their students. However, he does see that there is a lack of accessibility of some faculty members.

All in all we found President Eddy and Mrs. Eddy to be gracious hosts. We thank them for the opportunity to get to know them a little bit better and for the opportunity to see what life is like at 56 Upper College road!!

Photographs by James Fraser.
